Claim Objections

 This application is in condition for allowance except for the following formal matters: Claims 1-16 are objected to because of the following informalities:

The claims recite method claims, however method claims recite a series of active steps for example "reproducing in a controlled manner....", "displaying the electronic device", "assigning the major key, etc. These claims lack these necessary steps and therefor make the claims improper. Appropriate correction is required.

Periods are not allowed in the claims for example "1. to 12." must be taken out of the claims.

Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

- 2. Claims 1-16 are objected to, but would be allowable if the objections to the claims are corrected.
- 3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Konishihi, Suzuki, and Varrme disclose the use of program controlled music representation devices.
